I have a BS 5hp model 135202 tiller and it runs fine with complete choke, but when backing off the choke it will die... I have taken complete carb apart and cleaned it thoroughly and installed new diaphragm, dumped out old gas, and filled with new, and still will not run when choke is opened up.

The description plate attached to the top of each Briggs & Stratton engine lists the model number and engine power. A Briggs & Stratton engine with a "CC" rating rather than a "HP" rating will vary a bit above or below the converted HP rating depending on how well tuned the engine is at the time of testing.
