 Three in a Row: Multiplication - Big Ideas Learning

Three in a Row: Multiplication - Big Ideas Learning  
 Grouping, counting and addition. By the time children begin thinking multiplicatively they will already have had experience grouping, counting and addition. Grouping is a key foundation, as Sullivan, Cheeseman, Clarke & Mulligan attest, "Equal-grouping (composite) structure is at the heart of multiplicative reasoning" (2001, p. 234). Skip-counting by 2s, 5s, then 3s and 4s begins to develop children's ideas about multiples (Reys, et al. 2012).

Horizontal Multiplication - Math Worksheets  
 Multiplication and division are inverse operations. EXAMPLE 1 Solving an Inequality Using Multiplication Solve  $x \div 8 > 15$ . Graph the solution.  $x \div 8 > 15$  Write the inequality.  $8 \div x \div 8 > 8 \div (5)$  Multiply each side by 8.  $x > 140$  Simplify. The solution is  $x > 140$ . Solve the inequality. Graph the solution. 1.  $a + 2 < 4$  2.  $n \div 7$
