The award-winning Black Wealth / White Wealth offers a powerful portrait of racial inequality based on an analysis of private wealth. Melvin Oliver and Thomas Shapiro's groundbreaking research analyzes wealth - total assets and debts rather than income alone - to uncover deep and persistent racial inequality in America, and they show how public policies have failed to redress the problem.

While many Americans believe the wealth gap between blacks and whites is about 20 cents on the dollar, in reality the median black family has only 10% of the wealth of the median white family. Black Americans are more than twice as likely as white Americans to be poor, and the black unemployment rate is almost double the rate for whites.
