Chess Strategies for Beginners – Expert-Chess-Strategies.com

Chess strategy is the aspect of chess play concerned with evaluation of chess positions and setting of goals and long-term plans for future play. While evaluating a position strategically, a player must take into account such factors as the relative value of the pieces on the board, pawn structure, king safety, position of pieces, and control of key squares and groups of squares (e.g. diagonals, open files, and individual squares).

Chess strategy - Wikipedia

Chess Strategy Chess strategy is what makes chess such a beautiful game. After the memorized opening moves are played and each player starts to unfold their plan, the real chess begins to take place. Everyone likes to study opening theory and learn end game techniques but the middle chess game is where most games are won and lost.
