Multispecies and Watershed Approaches to  
Freshwater Fish ...

ZSL's Fish Net programme was initiated to tackle the extinction crisis affecting the planet ' s freshwater fish. Fish living in freshwater comprise one of the most threatened vertebrate taxonomic groups and yet very little attention is given towards their

# Download Ebook Conservation Of

plight or their conservation. Fish Net aims to change this trend and improve the survival rate of these neglected species around the world.

Fish Net | Zoological Society of London  
(ZSL)

Amongst the most threatened groups of

# Download Ebook Conservation Of

freshwater species are fish. Of some 15,000 species of freshwater fish approximately one in three are threatened with extinction.

Without conservation action it is clear that many of these species will be lost from our planet forever.

Working together to conserve freshwater
