Getting Started with 3D Carving. For years, 3D printing has been the hot topic in the maker world. But there ' s another type of desktop manufacturing that ' s become the go-to choice for anyone who needs quick, durable results—3D carving. Instead of slowly depositing layers of plastic, a 3D carver starts with a solid block of material and carves away using a rotating metal bit. 3D carving is faster than 3D printing, offers a wider choice of materials, and creates quality, permanent products.
