POSITIVE LAW THEORY. Positive law theory is also called, imperative or analysts law theory. It refers to the law that is actually laid down by separating " is " from the law, which is " ought " to be. It has the belief that law is the rule made and enforced by the sovereign body of the state and there is no need to use reason, morality, or justice to determine the validity of law. According to this theory, rules made by the sovereign are laws irrespective of any other considerations.

The Pure Theory of Law. The idea of a Pure Theory of Law was propounded by the formidable Austrian jurist and philosopher Hans Kelsen (1881–1973) (see the bibliographical note). Kelsen began his long career as a legal theorist at the beginning of the 20th century. The traditional legal philosophies at the time, were, Kelsen claimed, hopelessly contaminated with political ideology and moralizing on the one hand, or with attempts to reduce the law to natural or social sciences, on the other ...

Words have precise meanings in science. For example, "theory," "law," and "hypothesis" don't all mean the same thing. Outside of science, you might say something is "just a theory," meaning it's a supposition that may or may not be true. In science, however, a theory is an explanation that generally is accepted to be true.

Scientific Hypothesis, Theory, Law Definitions

Law is a system of rules created and enforced through social or governmental institutions to regulate behavior, with its precise definition a matter of longstanding debate. It has been variously described as a science and the art of justice. State-enforced laws can be made by a group legislature or by a single legislator, resulting in statutes; by the executive through decrees and regulations ...
