Node.js is an open-source, cross-platform, back-end, JavaScript runtime environment that executes  
JavaScript code outside a web browser. Node.js lets developers use JavaScript to write command line  
tools and for server-side scripting—running scripts server-side to produce dynamic web page content  
before the page is sent to the user's web browser. Consequently, Node.js represents a "JavaScript  
everywhere" paradigm, unifying web-application development around a single programming language ...
