Project MUSE - Shaping Science and Technology Policy

cience and technology policy helps to initiate and shape knowledge-based innovation. But the perception endures that the research produces the innovation, and the policy is second-dary or even beside the point of technical success—the evaporation of the government role in the creation of the Internet stands as a promi-nent example.

(PDF) The Social Shaping of Technology - ResearchGate

Shaping Defence Science and Technology in the Joint Domain: 2017 - 2021 is the inaugural joint science and technology strategy. It outlines areas of focus for science and technology to support Defence’s strategy, capability and operations, and identifies which research areas have the potential to support them. To achieve this, consideration has been given to strategic guidance, changes in the future operating environment, and the current joint science and technology support to Defence.

This paper reviews the growing body of research that explores ‘the social shaping of technology’ (SST) — how the design and implementation of technology are patterned by a range of ‘social’ and ‘economic’ factors as well as narrowly ‘technical’ considerations. It shows how researchers from a range of disciplinary backgrounds were brought together by a critique of traditional conceptions of technology (for example, ‘linear models’ of innovation that privileged ...
