The spectra of all other elements is also on wikipedia. So you can compare them to your test questions. 3. The star is either moving toward or away from us (C or D) If the spectrum lines are shifted to the red end, the star is moving away. 5. you have to compare the spectrum you have with the spectra of individual elements as per question 1.

~~Star Spectra - GIZMO Explore Learning? | Yahoo Answers~~

Assuming they did the surgery, could they fix what is wrong while they are there, or would that require another surgery. I have never had a 6 pound dog, so I don't know if I would risk a surgery on a dog that small. I just don't think I could do it on a dog that small. Still praying for you all and Zoe and Gizmo.
