DESIGNING THE CASE STUDY — Yin Ch. 2 . What is a research design? A "logical model of proof" that guides the investigator in the process of collecting, analyzing and interpreting observations — allows researchers to draw inferences concerning causal relationships among variables under investigation.

DEFINING THE CASE STUDY — Yin, Ch. 1

Yin (1994) defines case study as an empirical research activity that, by using versatile empirical material gathered in several different ways, examines a specific present-day event or action in a bounded environment. Case study objective is to do intensive research on a specific case, such as individual, group, institute, or community.

Case Study Method: A Step-by-Step Guide for Business ...

According to YIN what makes case study research distinct from experimental studies is the case study is investigated in context, examined in its "real world setting" (p.16). Selection of cases is based on the purpose of the research and related to the theoretical propositions about the topic of interest.

Case Study Research: Foundations and Methodological ...

Given Robert Yin ' s background (Ph.D. in experimental psychology, with a dozen publications in that field), his insistence that the case study method be done in confor - mity with science ' s goals and methods is perhaps not surprising.
